

Editing Project Templates

Published on 12/30/2014

To edit an existing Project Template, navigate to **Account > Project Templates**. In the Project Template Builder/Editor Page, locate the '**Edit Existing Template**' section on the bottom of the page.

The screenshot shows the 'Project Template Editor' interface. It features a blue header bar with the title 'Project Template Editor'. Below the header, there are three main sections: 'Project Details', 'Schedule', and 'Team Members'. The 'Project Details' section on the left contains fields for 'Default name', 'Deadline window', 'Budget:', 'Specs:', 'Design Direction:', and 'Description'. Below these fields is a 'Template Editor Options' section with three options: 'Create from blank' (with a green 'CREATE NEW TEMPLATE' button), 'Create from existing Project' (with a dropdown arrow), and 'Create from existing Template' (with a dropdown arrow). The 'Edit existing Template' option is highlighted with an orange border. At the bottom right of the interface is a green 'DONE' button.

Select the template you wish to edit from the drop down list and make changes to the template accordingly. Click 'Save Template' to proceed.
