Released To Project	The job launch request has been accepted and made into an active project.
Editing	A Staff or Admin user is in the process of editing the request and no action can be taken until the they "Resume Edit" and "Submit."
Actions Needed	The job launch request has been opened and actions are required to move the request forward.
In Revision	The requester is in the process of editing the request and no action can be taken until the requester finalizes their edits.
Rejected	The job launch request was rejected and returned to the requester.
Authorized	The request was released for review and has been returned approved. Action is still required to reject or move the request to a project.
	The request was released for review and has been returned with actions needed. Action is still

Returned, Actions Needed	required to reject or move the request to a project.
Error	The job launch has not been processed. Reach out to the requestor or contact support   (http://goinmo.co/help) for further assistance.

## My Job Launches Statuses

The following are the potential job launch request statuses found in the My Job Launches page.

Started	A request has been started but not yet submitted.  Or, when job launch edits are enabled, a request previously submitted has been edited by the current user but not fully submitted.
Being Reviewed	The request has been opened and is in review.
Released To Project	The job launch request has been accepted and made into an active project.
Rejected to me	The job launch request was rejected and returned to the current user. The rejection may have comments or additional requests for revision.  Another version can then be submitted by the requester.
Error	The job launch has not been processed.  Resubmit your request again or contact support  (http://goinmo.co/help) for further assistance.
