

# October 2017 Release Notes

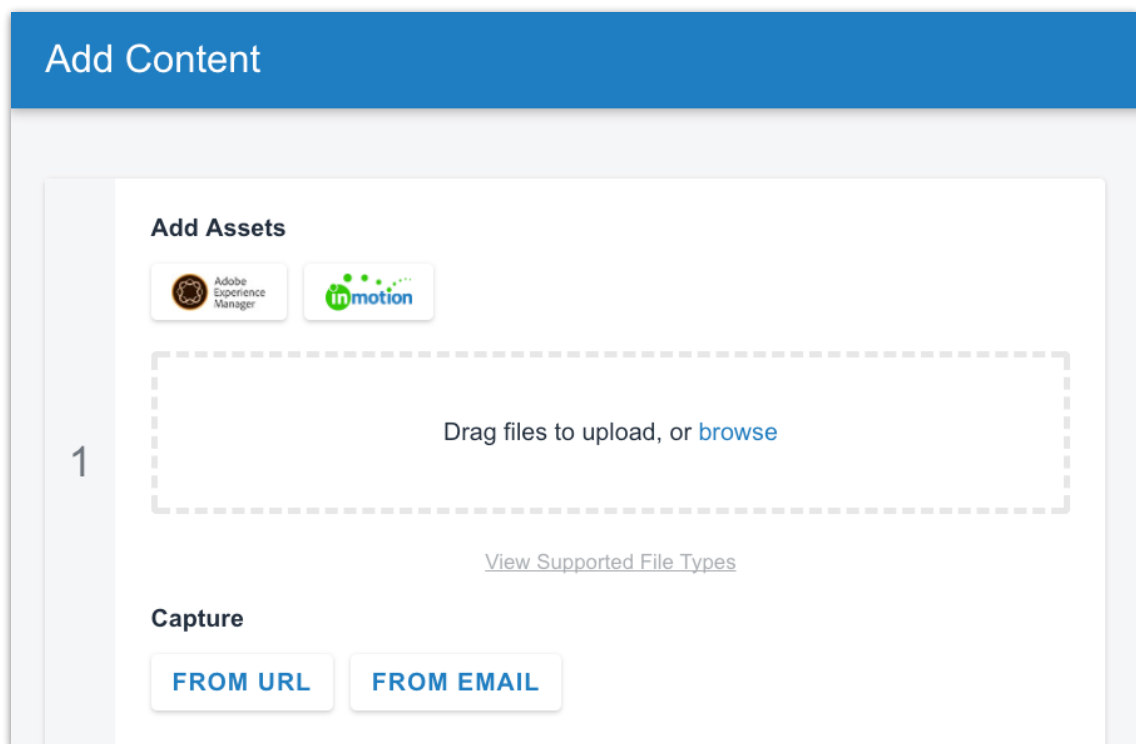

Published on 10/09/2017

## New Features

### inMotion

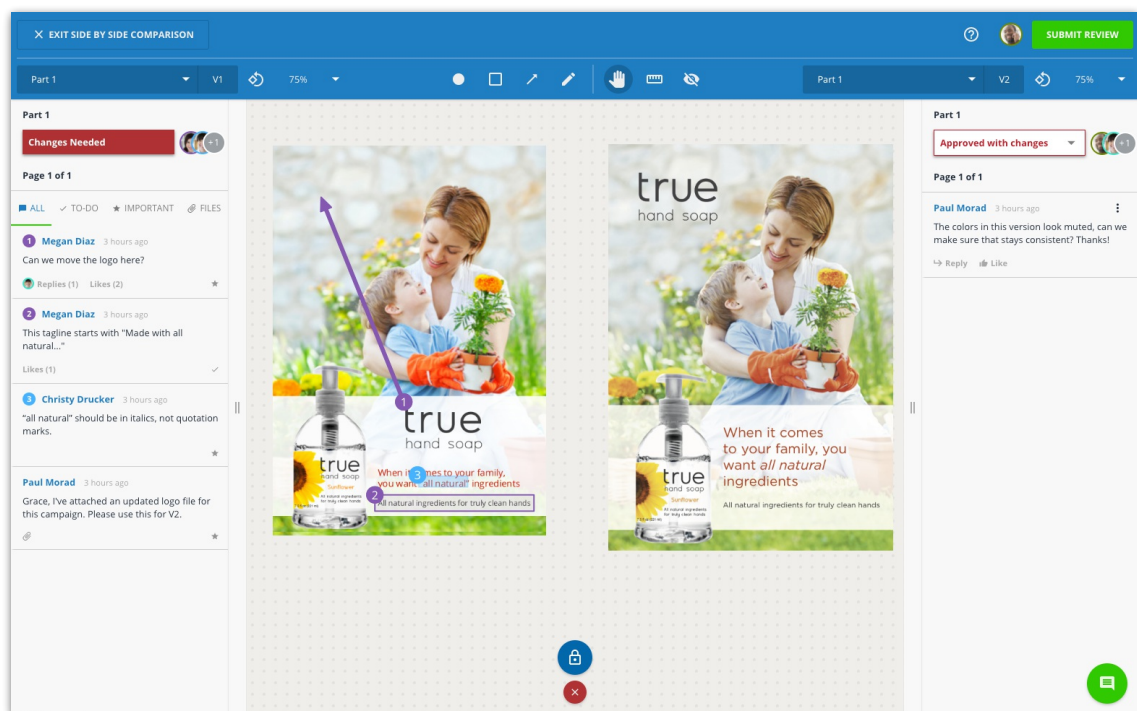

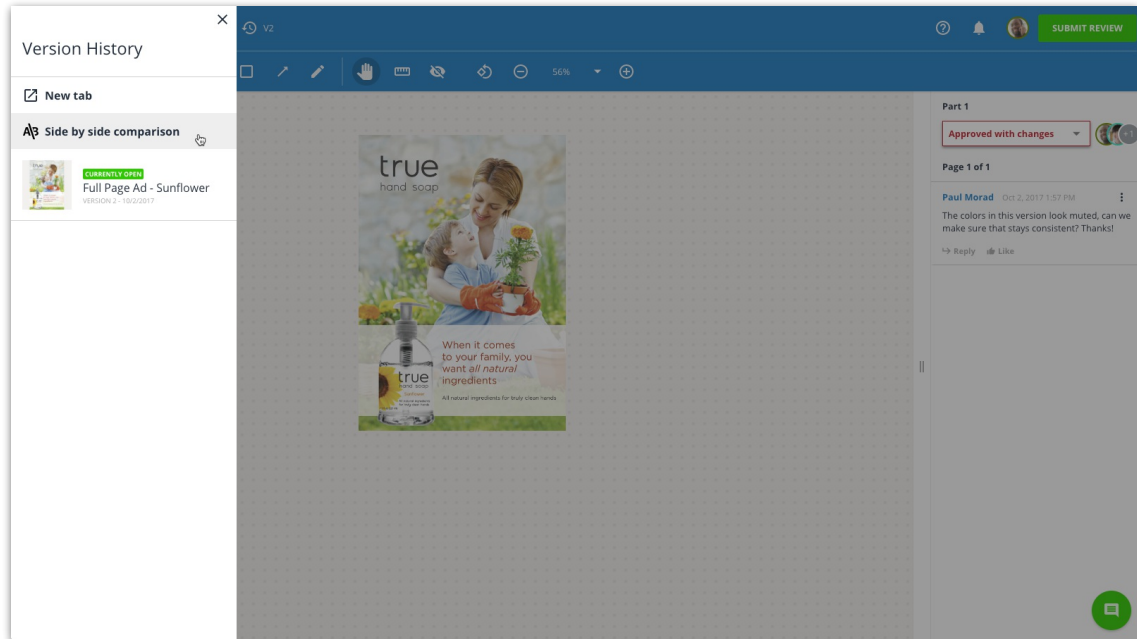

- **Adobe Experience Manager Integration – DAM integration**

(<http://guide.inmotionnow.com/help/dam>) with Adobe Experience Manager is now available

## Review + Approval

- **Side-by-Side Version Comparison** – Reviewers can now [compare different versions](http://guide.inmotionnow.com/help/versioning#side-by-side-comparison) (<http://guide.inmotionnow.com/help/versioning#side-by-side-comparison>) of the same proof side-by-side on a single screen. Once in side-by-side comparison mode, reviewers can lock versions together to pan, zoom, rotate, and navigate through each version in tandem. In addition, reviewers can easily toggle between past versions to view changes and share feedback.

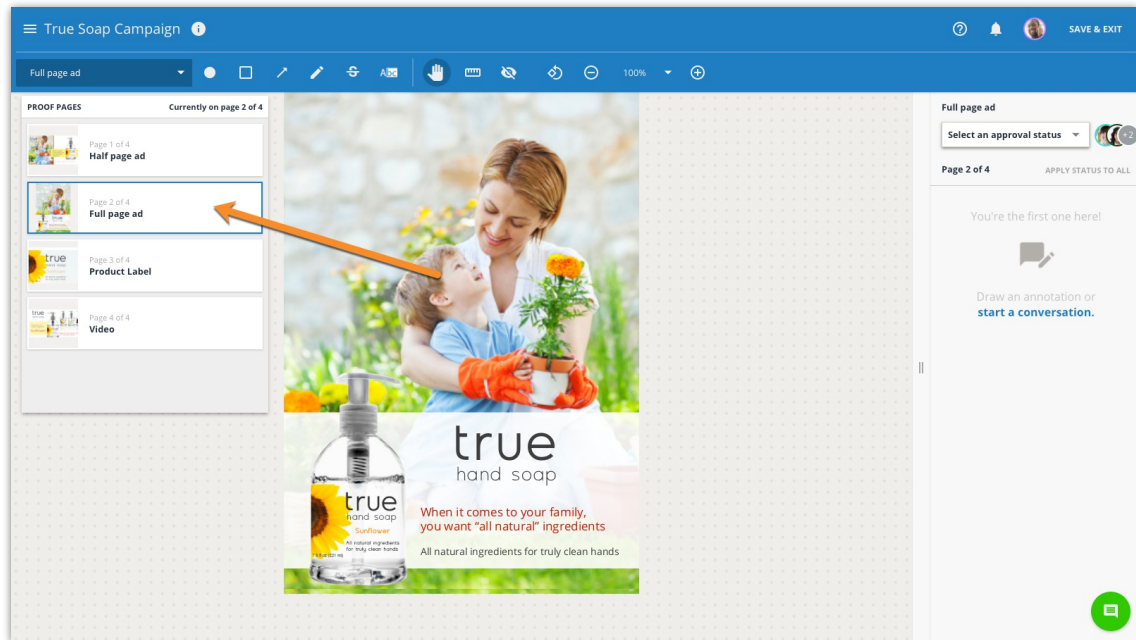

## Improvements

### inMotion

- **Email Notification for rejected job launches** now include a link to bring the user directly to the respective job launch

## Review + Approval

- The **navigation menu now scrolls** to the currently open asset and displays each **page number** for easier proof navigation.

- Zoom level now persists throughout proof navigation.** Once you adjust to your preferred zoom level, it will remain set throughout page navigation during your session.
- A **progress indicator** now appears when zooming into PDF assets to indicate the loading progress of the enlarged view.
