

# Whitelisting inMotion

Published on 04/19/2018

If your company's security or firewall settings have restrictions on sites you can access, it may be necessary to whitelist specific domains and/or email addresses.

## Web Domains

- *YourSubDomain.inmotionnow.com*
- app.inmotionnow.com
- review.inmotionnow.com
- converter.inmotionnow.com
- mail.inmotionnow.com
- https://s3.amazonaws.com/review-inmotionnow
- review-inmotionnow.s3.amazonaws.com
- proofs.inmotionnow.com
- api.inmotionnow.com

## Email Addresses

These email addresses are used by inMotion to send system notifications:

**donotreply@inmotionnow.com** is used when sending report subscription emails.

**jobstatus@inmotionnow.com** is used to notify you when you have submitted a job launch request, your job launch request status has changed, or when the proof you submitted has completed the review process.

**newuser@inmotionnow.com** is used to send out new user registration emails and password resets for users.

**project@inmotionnow.com** is used for any project alerts including task notifications.

**proofavailable@inmotionnow.com** is used when a reviewer is sent a proof to review or a job launch manager has a new job launch request available for review.

**reminder@inmotionnow.com** is used for proof notification reminders sent to pending reviewers.

**support@lytho.com** is used for certain company communication.
